Dear colleagues!

We welcome you to Sumy National Agrarian University! SNAU is not just an educational institution. It is a modern European-style educational center, which trains a wide contingent of high-quality specialists for the agro-industrial sector.

Starting in 1977 as a branch of Kharkiv Agricultural Institute named after Dokuchaiev, for more than 40 years SNAU has become a place where advanced scientific technologies are concentrated. Every year the University's material and technical base and laboratory facilities are updated with new equipment, which is sometimes unique for Ukraine.

The quality of specialist training is recognized by more than 30 partner countries, where our students and academic teaching staff undertake their internships. SNAU graduates are welcome at the largest agro-industrial enterprises, as evidenced by the number of employed students.

Sumy NAU is always open to new, collaborative projects that will develop world science, help to preserve the environment, and ensure the sustainable development of humanity. We will be very glad to see you in Sumy NAU.

*Sincerely,
Rector of SNAU,
Academician of the National Academy
of Agrarian Sciences of Ukraine
Volodymyr Ladyka*

A handwritten signature in blue ink, which appears to be 'V. Ladyka'.

Сумской национальной аграрный университет – это инновационный образовательный центр, который концентрирует в себе современные подходы к науке, а также лучшие достижения классического высшего образования. Особенностью вуза является его ориентация на запросы аграрного бизнеса. Такой подход позволяет успешно реализовывать инновационные образовательные программы для студентов СНАУ. Кроме того, тесное сотрудничество с ведущими производителями сельхозтехники и производственного оборудования для предприятий позволяет создавать передовые лаборатории для наших студентов.

СНАУ - один из лидеров аграрного образования в Украине. Наши студенты и сотрудники неоднократно становились лауреатами различных премий и мировых конкурсов. Работы наших ученых регулярно публикуются в изданиях, входящих в состав наукометрических баз. Для студентов созданы комфортные условия проживания и развития.

Общежития, спортивные секции и творческие кружки, волонтерские и общественные проекты позволяют обеспечить всестороннее развитие наших студентов. К тому же в городе Сумы регулярно проводятся различные фестивали, акции и флешмобы.

**ПРИГЛАШАЕМ
НА ОБУЧЕНИЕ В
СУМСКОЙ НАЦИОНАЛЬНЫЙ
АГРАРНЫЙ УНИВЕРСИТЕТ!**

Sumy National Agrarian University is a modern educational center that focuses on modern approaches to science as well as the best assets of classical higher education. A unique aspect of the university is its orientation to the demands of modern agrarian business. This approach allows successful implementation of innovative educational programs for SNAU students. In addition, this close collaboration with leading manufacturers of agricultural machinery and production equipment for businesses allows us to create state-of-the-art laboratories for our students.

SNAU is one of the leaders in agricultural education in Ukraine. Our students and staff have repeatedly won various awards and world competitions. The works of our scientists are regularly published in editions of scientometric databases.

Comfortable living and development conditions are created for students. Dormitories, sports sections and creative clubs, volunteer and community projects help to ensure the full development of our students. In addition, Sumy regularly hosts various festivals, events and flash mobs.

**WELCOME
TO THE SUMY NATIONAL
AGRARIAN UNIVERSITY!**

Die Sumy National Agrarian University ist ein modernes Bildungszentrum, das sich auf moderne wissenschaftliche Ansätze sowie auf beste Vorzüge der klassischen Hochschulbildung konzentriert. Die Besonderheit der Universität ist ihre Ausrichtung auf die Anforderungen der modernen Agrarwirtschaft. Dieser Ansatz ermöglicht die erfolgreiche Umsetzung von innovativeren Bildungsprogrammen für SNAU-Studenten. Dank der engen Zusammenarbeit mit führenden Herstellern von landwirtschaftlichen Maschinen und Produktionsanlagen für Unternehmen können wir außerdem hochmoderne Labors für unsere Studenten einrichten.

SNAU ist einer der führenden Anbieter der landwirtschaftlichen Ausbildung in der Ukraine. Unsere Studenten und Mitarbeiter haben verschiedene Preise und Weltwettbewerbe gewonnen. Die Arbeiten unserer Wissenschaftler werden regelmäßig in Periodika veröffentlicht, die in der wissenschaftlichen Basis enthalten sind.

Für die Studierenden werden komfortable Lebens- und Entwicklungsbedingungen geschaffen. Sporträume und Kreativclubs, Freiwilligen- und Gemeinschaftsprojekte tragen dazu bei, die volle Entwicklung unserer Studenten sicherzustellen. Darüber hinaus veranstaltet Sumy regelmäßig verschiedene Festivals, Events und Flashmobs.

**SUMY NATIONAL
AGRARIAN UNIVERSITY**

FACULTY OF AGROTECHNOLOGIES AND NATURAL RESOURCE MANAGEMENT

The Faculty trains agronomists, plant protection specialists, ecologists, masters of landscape design and forestry, tourism professionals, etc. A new, promising direction of training is biotechnology and bioengineering, which makes it possible to train specialists who will be engaged in human health protection, natural resource restoration, and sustainability support.

The Faculty has a research and production complex. It includes not only the research fields but also the breeding and seed-growing complex, the educational-practical center, along with the greenhouse complex, educational-scientific garden, arboretum, park-monument of landscape art “Kyianytsia”.

Students and postgraduates from China, Pakistan, and Ghana study and carry out scientific research at the Faculty. Faculty staff conduct scientific and educational projects funded by the Ministry of Education and Science of Ukraine, ERASMUS +, DAAD, EBRD, FAO.

Bachelor programs: “Ecology”; “Agronomy”; “Plant Protection and Quarantine”; “Forestry”; “Landscape Gardening”; “Tourism”, a course of study – 4 years.

Master programs: “Ecology”; “Agronomy”; “Plant Protection and Quarantine”; “Forestry”; “Landscape Gardening”; “Tourism”; a course of study – 1.5 years.

PhD programs: “Agronomy”; “Ecology”; “Plant Protection and Quarantine”.

Languages of instruction: Ukrainian, English, Russian.

Telephones: +38 (0542) 62-78-17

E-mail: agro@snau.edu.ua

FACULTY OF CIVIL ENGINEERING

The Faculty of Civil Engineering has a large scientific capacity which enables it to carry out scientific research and design at a level that corresponds to the modern achievements of science and technology in the field of construction. It trains qualified professionals who will be able to hold senior positions in design and construction companies and carry out research in the field of construction.

Honored architects, builders, design professionals that made a significant contribution to the development of the city of Sumy teach at the Faculty. The Faculty of Civil Engineering of SNAU is a permanent state contractor in the field of construction and architecture.

Researches conducted by scientists of the Faculty are published in leading scientific journals of the world as part of the scientific base.

Students from Turkey, Jordan, Turkmenistan, Morocco, Tajikistan, Namibia, and Comoros study in SNAU as well.

Bachelor programs: “Architecture and Urban Planning”; “Civil Engineering”, a course of study – 4 years.

Master programs: “Architecture and Urban Planning”, “Civil Engineering”, a course of study – 1.5 years.

Languages of instruction: Ukrainian, English, Russian.

Telephones: +38 (0542) 70-11-65

+38 (050) 25-87-313

E-mail: budf@snau.edu.ua

FACULTY OF BIOLOGY AND TECHNOLOGY

The Faculty trains professionals who work in public institutions, private enterprises, or run their own business in the field of livestock product processing and production as well as professionals for customs and border forces.

The pride of the faculty is the Hog Slat Training Lab where specialists in animal husbandry are trained, and opportunities for prevention of African swine fever spreading are explored. In addition, the Faculty has all the necessary bases for conducting research in various fields. A number of scientific developments of the Faculty of Biology and Technology are put in production.

Students and scientists of the Faculty participate regularly in the programs of educational and academic mobility in Denmark, Poland, Germany, and other countries.

Bachelor programs: "Technology of Animal Products Production and Processing"; "Aquatic Bioresources and Aquaculture";
a course of study – 4 years.

Master programs: "Cynology"; "Technology of Milk and Beef Production";
"Technology of Production and Processing of Animal Products",
a course of study – 1.5 years.

PhD programs: "Technology of Animal Products Production and Processing".

Languages of instruction: Ukrainian, English, Russian.

Telephones: +38 (0542) 62-78-16

FACULTY OF ENGINEERING AND TECHNOLOGY

The Faculty trains high-quality specialists and managers of engineering services, departments of technical support of transport enterprises, and energy services. The pride of the Faculty is the Center for Precision Farming with an indoor landfill of 800 sq. m, where students can master practical skills in working with agricultural machinery year-round.

The Faculty has partnership with leading manufacturers of agricultural machinery such as John Deere, HORSCH, ELVORTI, and others. It is the basis for training and practical seminars for employees of agricultural enterprises. Students are also provided with the opportunity to get practical skills in working with modern technology and learning in dual education.

The scientists of the faculty have developed unique world level technologies of metal working and processing, and electrovacuum technologies. Research results are published by the world's leading publishers.

Bachelor programs: “Agro-engineering”; “Transport Technologies”; “Power Generation, Electric Engineering and Electromechanics”;
a course of study – 4 years.

Master programs: “Power Generation, Electric Engineering and Electromechanics”; “Systems of Precision Farming”; “Mechanization of Farming”; “Technologies and Quality of Transportation”; “Transport Technologies”;
a course of study – 1.5 years.

PhD programs: “Sectoral Machine Building”.

Languages of instruction: Ukrainian, English, Russian.

FACULTY OF ECONOMICS AND MANAGEMENT

The Faculty of Economics and Management trains specialists for senior positions in agribusinesses, regional managers and members of administrative staff for public and local authorities. The Faculty cooperates closely with foreign partner countries under the international projects TOPAS, Erasmus +, DAAD, and is internationally accredited by ACQUIN agency.

The Faculty trains 119 foreign students from Azerbaijan, Ghana, Zambia, Zimbabwe, India, China, Nigeria, Turkey, Turkmenistan and Uzbekistan.

Bachelor programs: “Economics”; “Accounting and Taxation”; “Finance, Banking and Insurance”; “Organization Management and Administration”; “Marketing”; “Entrepreneurship, Trade and Stock Market Activity”; “Public Management and Administration”;
a course of study – 4 years.

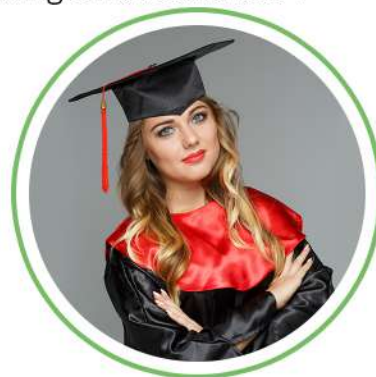

Master programs: “Economics”; “Accounting and Taxation”; “Finance, Banking and Insurance”; “Organization Management and Administration”; “Marketing”; “Entrepreneurship, Trade and Stock Market Activity”; “Public Management and Administration”; “Logistics”; “Management of FEA”; “Administrative Management”;
a course of study – 1 year, 4 months.

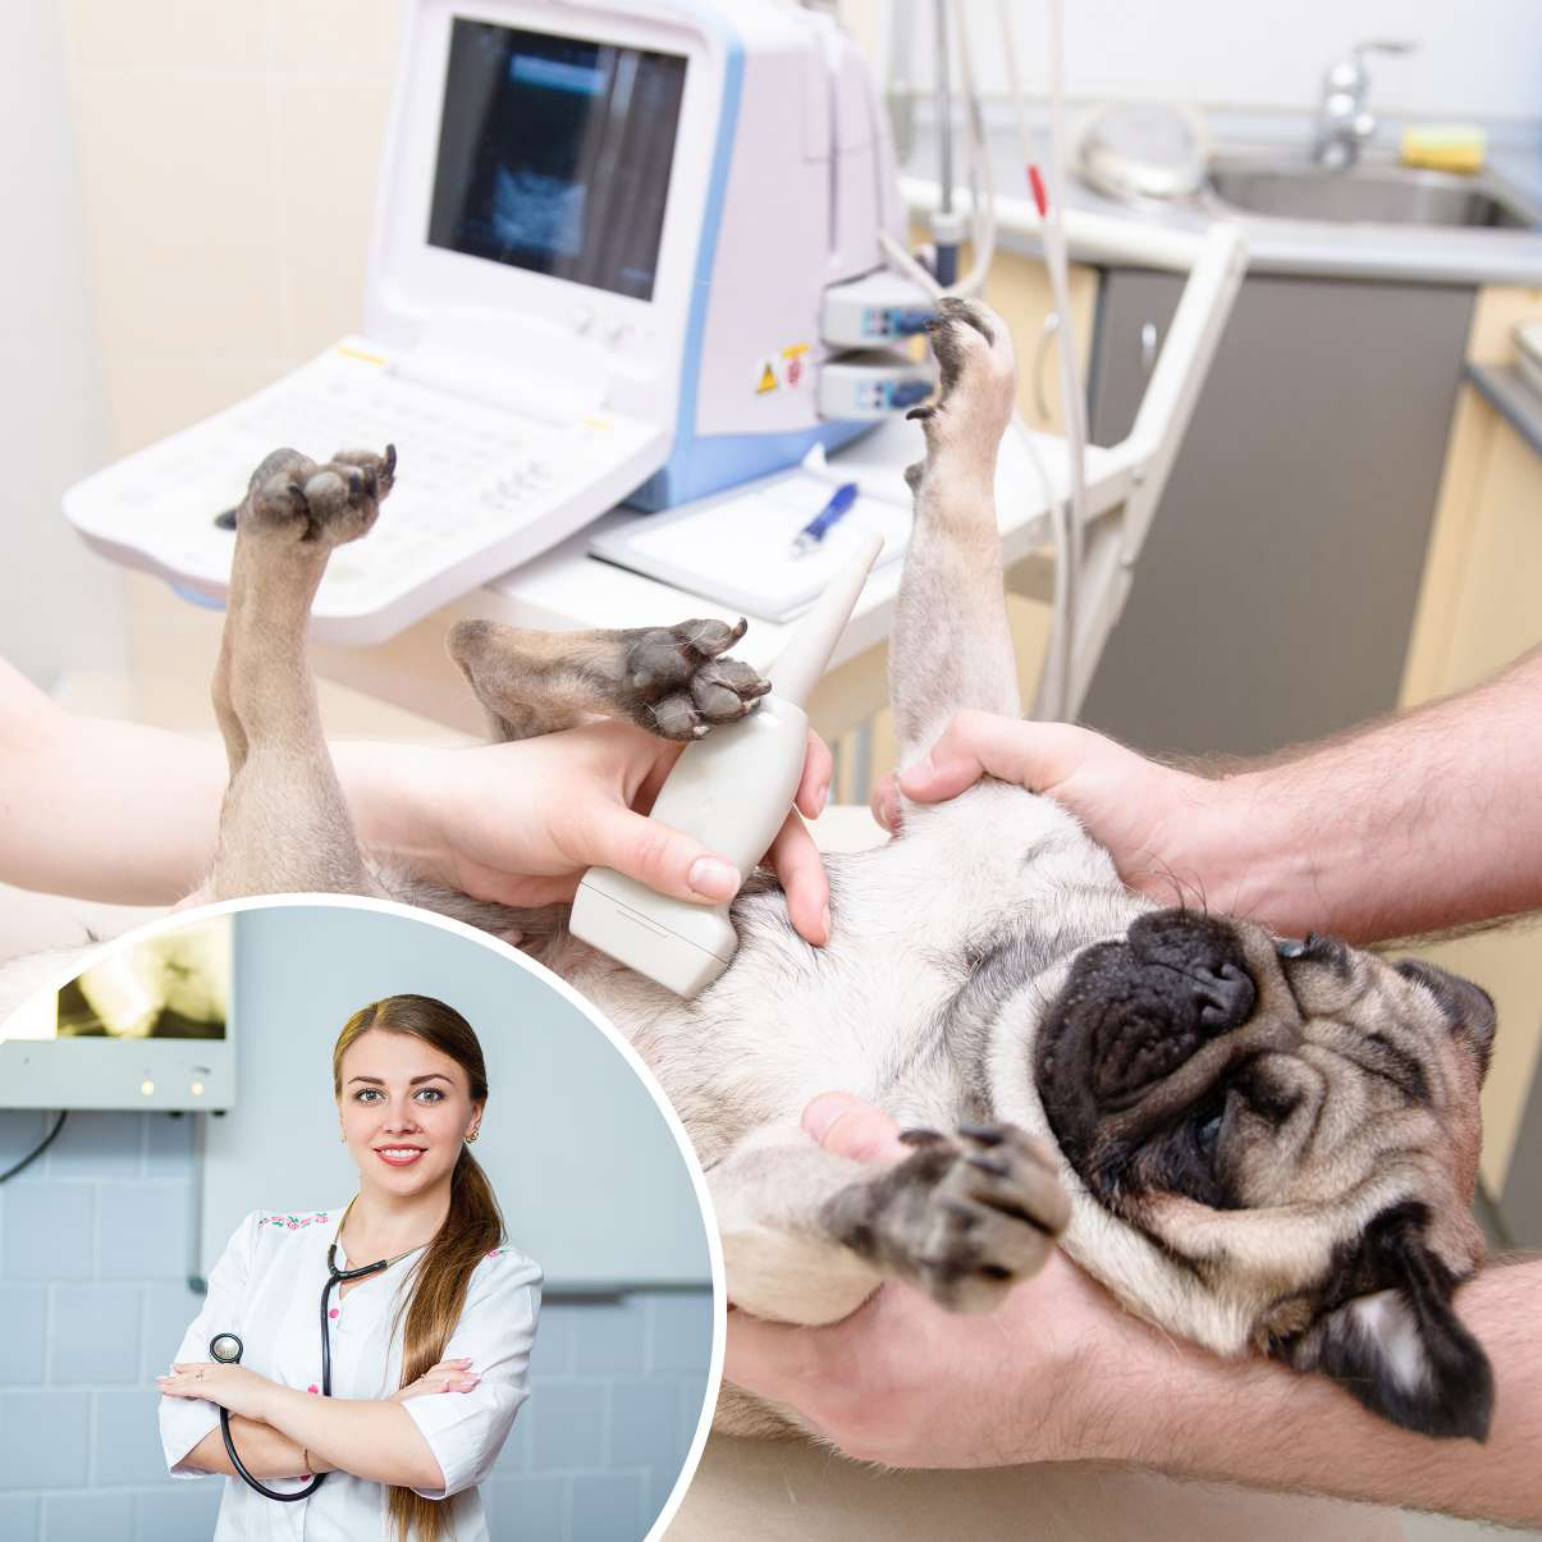

PhD programs: “Marketing”; “Management”; “Finance, Banking and Insurance”.

Languages of instruction: Ukrainian, English, German.

FACULTY OF VETERINARY MEDICINE

This is a powerful scientific and educational institution with the certification of the European Quality Assurance Agency. The Faculty focuses not only on student training, but also on advanced training of practicing specialists.

The Faculty has 11 modern scientific and educational laboratories, a clinic and a vivarium where animals and birds are kept.

Foreign students from Azerbaijan, Ghana, Zambia, Zimbabwe, India, China, Nigeria, Turkey, Turkmenistan, and Uzbekistan study here.

Veterinary drugs and remedies developed by the Faculty are widely introduced into production by leading pharmaceutical companies.

Graduates have the opportunity to work in departments of State Consumer Services, diagnostic laboratories, private clinics, at production and teaching in HEIs.

Through participation in the European Business Association graduates can apply for a good job in other countries.

Specializations: “Veterinary Pharmacy”; “Laboratory Practice”; “Business at Veterinary Medicine”; “Biotechnology”; “Forensic Veterinary Medicine”; “Diseases of Birds, Cattle, Pigs, Horses”; “Diseases of Wild and Exotic Animals”; “Diseases of Small Animals, Cynology”; “Diseases of Fish, Birds, Bees”; “Quality and Safety of Livestock Products”.

Master programs: “Veterinary Medicine”; “Veterinary Hygiene, Sanitation and Expertise”; a course of study – 6 years.

PhD programs: “Veterinary Medicine”; “Veterinary Hygiene, Sanitation and Expertise”.

Languages of instruction: Ukrainian, English.

FACULTY OF LAW

“By changing ourselves for the better, we can change the world” is the main credo of the Faculty of Law of Sumy National Agrarian University, which has been providing quality education in three prestigious specialties over the past two decades. Creative academic staff, renowned legal practitioners, attorneys, prosecutors, judges, land managers are involved in the educational process. A successful online platform of education, interactive classes operates.

Law students have the opportunity to study subjects in English, work in interactive classrooms equipped with modern technology. A learning courtroom, an interactive classroom for development of communication skills, Surveying and Land Management Laboratory, Practical Law Laboratory are at the disposal of academic teaching staff and students, which enables them to get the best practical skills and provide legal assistance to the population.

Students and academic teaching staff visit international institutions, such as the administrative bodies of the EU, annually. These include the European Court of Human Rights, the Council of Europe, the International Court of Justice, the International Criminal Court.

Bachelor programs: “Law”; “Surveying and Land Management”; “International Law”; a course of study – 4 years.

Master programs: “Law”; “Surveying and Land Management”; a course of study – 1.5 years.

PhD programs: “Law”.

Languages of instruction: Ukrainian, English.

Telephones: +38 (0542) 78-76-40
+38 (066) 35-52-453
E-mail: lawf@snau.edu.ua

FACULTY OF FOOD TECHNOLOGIES

The Faculty prepares specialists for hotel and restaurant complexes, catering enterprises, and processing enterprises. Students are provided with the opportunity to gain practical skills at the public catering establishments and partner enterprises – “Hlobino”, “MHP (Myronivskiy Hliboproduct)”, etc. On the basis of the Faculty, an international project “Improving Professional Skills in the Field of Meat Processing in Ukraine” is being implemented with the support of the European Bank for Reconstruction and Development.

Young scientists of the Faculty have repeatedly won international awards and received research grants. In particular, the discovery of technology to create a biological plastic substitute was heard all over the world.

In addition, the scientists of the Faculty participated in the development of the manufacturing technology of hypoallergenic milk A2, which will soon be launched for bulk production.

Bachelor programs: “Food Technology”; a course of study – 4 years.

Master programs: “Technology of Nutrition”; “Technology of Storage, Preservation and Processing of Milk”; “Technology of Storage, Preservation and Processing of Meat”; a course of study – 1 year, 4 months.

PhD programs: “Food Technology”.

Languages of instruction: Ukrainian, English.

The scientific activity of Sumy National Agrarian University is carried out in 19 scientific laboratories.

The first Ukrainian Center of collective use of scientific equipment on the innovative agrotechnology “Laboratory of ecological agriculture and nature management” is set up at the University.

Main directions of scientific activity:

- Selection of potatoes, wheat, oilseeds
- Technology of growing crops in different climatic zones
- Population biology and ecology
- Conservation of animal and bird micropopulations
- Development of animal and poultry keeping technologies
- Veterinary and sanitary expertise and animal hygiene
- Improving the quality of work surfaces of parts
- Precision farming
- Development of plastic substitutes
- Processing technologies for crop and livestock products
- Marketing of agricultural markets
- Enterprise management and economics
- Managing sustainable development of territorial communities
- Agrarian and information law

In the past ten years, the university's scientists have developed and invented:

1 
aboriginal
cattle breed

36  varieties of potatoes

5  varieties of wheat

5 immunomodulators

2  varieties of buckwheat

6  varieties of sunflower

19  antimicrobial preparations

17 antiparasitic preparations

6 disinfectants

BUSINESS PARTNERS

The uniqueness of Sumy National Agrarian University lies in its broad partnerships with domestic and international businesses. With the financial support of leading enterprises new classes and laboratories are opened at the University annually. SNAU is a participant of the unique project of the Ministry of Education and Science on the development of dual education.

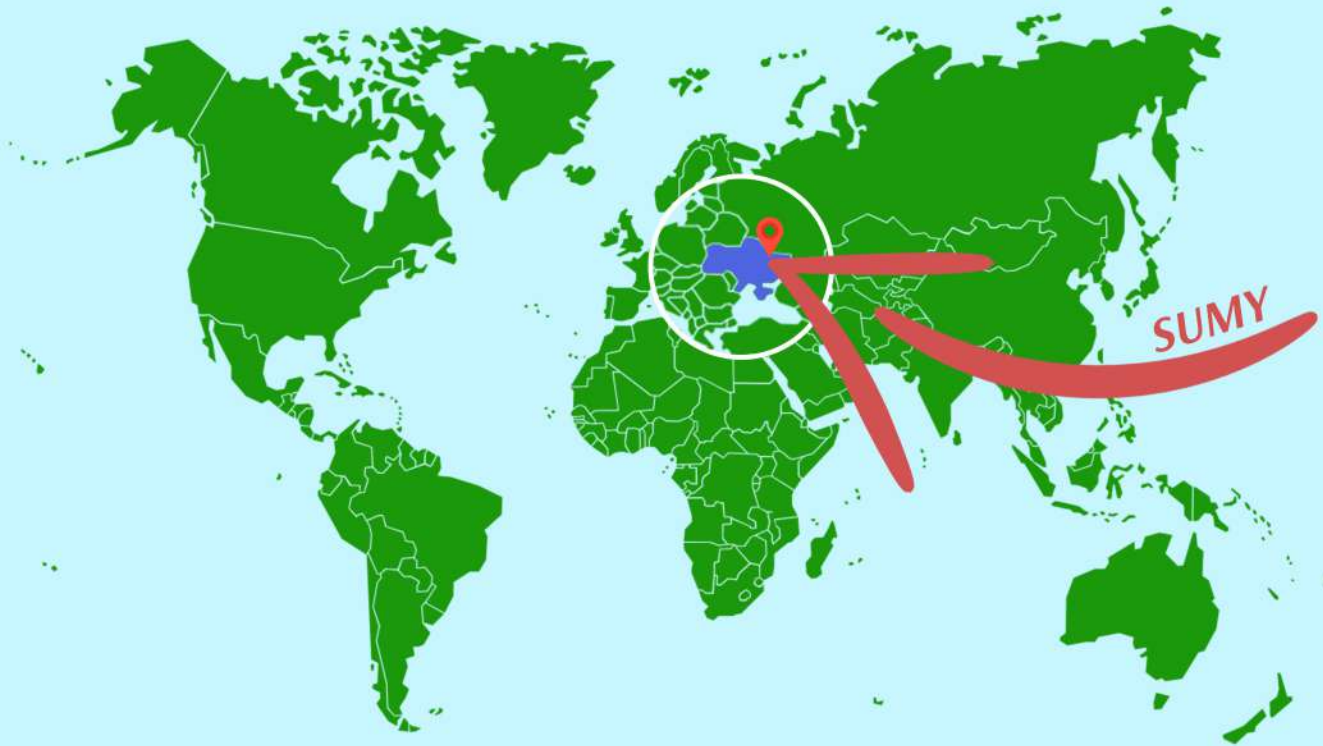

JOHN DEERE

INTERNATIONAL COOPERATION

There are creative clubs in Sumy NAU, which promote the harmonious development of students.

FOLK DANCE GROUP “VESNA”

- The main thing that unites the team members is the love for folk choreographic art that they share with the audience!

MODEL CONTEMPORARY BALLROOM DANCE GROUP “SWAY”

- The ensemble “Sway” takes an active part in numerous celebrations and gala concerts of the city and region. The choreographers teach ballroom choreography to beginners, as well as professionals, traveling with concerts throughout and outside the country.

MODEL CONTEMPORARY DANCE GROUP “SHARM”

- Classes are based on classical and modern dance. The repertoire of the dance group consists of stylized folk dances, modern jazz, contemporary, hip-hop, vogue, classical dances. The repertoire is composed following modern times and the needs and desires of the members of the circle.

STUDENT ACADEMIC CHOIR “YUNIST”

- More than 30 students of different faculties of the University participate in the choir. Students sing modern, folk and self-composed songs.

KVN STUDIO

- SNAU has KVN teams at each faculty, and every year they take part in a university season. Friendly competition leads to incredible results.

This is a dynamic event for teams that are always in good shape.

In addition, students can realize their leadership qualities by joining student self-government; take part in the contests “Meet – This Is Us!”, “KVN Cup Agrarvard”, “Miss and Mr. SNAU”; become part of volunteer and social projects.

USEFUL INFORMATION

Why Sumy?

The city of Sumy provides an opportunity to see facts of importance and live with something important. It is comfortable and compact. It has everything for life and personal development like in other cities but by the side of those who live in this city. People here are open and always ready for new things. They are not indifferent since they have more time for important matters.

It is necessary to know:

- Sumy is a city created by brave Cossacks, people who are nowadays the pride of the Ukrainian nation. It was in 1655 that the Cossacks-settlers from the Kyiv region, headed by Ataman (chief-tain) H. Kondratiev, came to the place of the present Sumy. Defensive structures were erected here, and in 1658 the Sumy Slobid Cossack Regiment was formed and headed by H. Kondratiev.
- Sumy is a city that inspired the creative work of the famous writer A. P. Chekhov. Since 1888 the author had repeatedly rested with his family in Sumy, and expressed his memories of the city in the stories “Name Day”, “Boring Story” and plays “The Seagull”, “The Hobbler.”
- There are two monuments by a world-known French sculptor of the second half of the 19th century – beginning 20th century Aristide Kruazi in Sumy. He was the author of a number of sculptures embellishing the gardens of the Palais-Royal, the Louvre, Paris Mayor’s Office, and other Paris sights.
- The city of Sumy is included in the Book of Records of Ukraine as a city where the largest number of blood donations per thousand population is recorded. In Sumy, this index is almost twice as much as, for example, in the USA.
- The summer house is not only a symbol of the city but also a symbol of true feelings. According to the legend, it was built by the architect A. Shchaveliev without a single nail in order to attract a girl for whom he had unrequited love. Nowadays, the summer house continues to attract hearts in love: dates are arranged next to it, newlyweds capture the event on pictures, inhabitants of Sumy enjoy meeting here.
- Sumy is a city throbbing with life: street food festivals, Chekhov Fest, dance festivals, various bicycle festivals.

You will not be bored!

SNAU INFRASTRUCTURE

The University campus is, without exaggeration, the pearl and decoration of the city of Sumy.

- 1- the main building
 - Faculty of Biology and Technology
 - Faculty of Law
- 2- engineering and technological building
 - Faculty of Engineering and Technology
 - Faculty of Food Technology
- 3- economic building
 - Faculty of Economics and Management
 - Faculty of Civil Engineering
- 4- Faculty of Veterinary Medicine, Center of Collective Use of Scientific Equipment
- 5- Faculty of Agrotechnology and Natural Resource Management
- 6- farmer's house
- 7- vivarium
- 8- the main stadium
- 9- dormitories (1, 2, 3, 4)
- 10- Canteen, Ginkgo Cafe
- 11- the Saint martyr Valentine's Temple
- 12- boiler house
- 13- greenhouses
- 14- garage park, training ground
- 15- bus stop of route taxi № 15
- 16- research fields
